OBJECTION BY A-1 SPECIALIZED SERVICES & SUPPLIES, INC.
TO NOTICE OF CURE AMOUNT

Introduction

1. A-1 Specialized Services & Supplies, Inc. ("A-1") is a supplier of platinum, palladium and rhodium ("platinum group metals" or "PGM") to industrial users. Throughout its existence, Delphi Corporation ("Delphi") has purchased PGM from A-1 for use in the manufacturing of automotive components. A-1 also reclaims PGM from industrial manufacturing scrap. Throughout its existence, Delphi has purchased the reclamation services of A-1 to recover PGM from its automotive manufacturing scrap. Delphi has continued during the administration of the bankruptcy to purchase PGM and reclamation services from A-1.
2. Delphi now proposes to sell substantially all of the assets used in its automotive catalyst business to Umicore S.A., a Belgian limited liability corporation, and to assign certain supply and reclaim contracts with A-1 to Umicore.
3. In relation to that proposed sale and assignment, Delphi has asserted that the cure amount regarding prepetition arrearages of A-1 is \$430,384.00.

4. A-1 objects to this assertion. The prepetition arrearages due to A-1 are the metals that were in the possession of Delphi as of the date of the petition: platinum – 500 troy ounces; palladium – 4000 troy ounces; rhodium – 300 troy ounces.

5. The court should further understand that A-1 set off those prepetition arrearage metals in the possession of Delphi against metals that were, at the time of the Delphi petition, in the possession of A-1. This information may need to be taken into consideration in relation to the proposed sale of the catalyst manufacturing assets.
